Police Officers, Sheriff Deputies, Correctional Officers and Judges render an invaluable service to society.

This is why Stewart • Cooper • Newell • Architects has spent the last three decades assisting Law Enforcement and judicial agencies nationwide attain facilities conducive to the needs of the department and the surrounding community. As a full-service architectural firm, Stewart • Cooper • Newell • Architects offers a wide-range of services to our clients. Whether we are performing a needs assessment or designing a new facility, our focus is always our client's goals. In order for us to reach these goals, our services must be anchored on security, functionality, state-of-the-art design, and budget. 🏢

pasquotank county sheriff's office & public safety facility

The Pasquotank County Sheriff's Office and Public Safety Facility was constructed as a result of a county-wide feasibility study that Stewart • Cooper • Newell Architects conducted. The facility houses the Sheriff's Office, 911 Communications, Emergency Management and District Attorney.

statesboro police department
Martin, Rule & Associates + SCN Architects

Serving as a design consultant to a local architect, Stewart • Cooper • Newell Architects offered its expertise in the design of this facility. At 25,000 square feet, the new facility includes several state-of-the-art features including a 911 communications area, along with a training/EOC space.

This 22,000 square foot facility contains all services of the sheriff's office as well as the county coroner. The building will hold two interview rooms with an observation room, as well as ample evidence storage.
